

URBAN MOUNTAIN

RESIDENTIAL AND BUSINESS COMPLEX

The Urban Mountain offers living in an urban hut. Why an Urban hut? The Urban hut offers a break in the nature, the smell of wood, privacy, views and natural light. The resident of the neighbourhood gets a feeling of the Urban hut with the before mentioned urban design, as well as with the architecture: the introduction of a living loggia and roofed patio, which offers an added value (light, shadow, privacy, the warmth of a material, green garden).
