

# PERUNIS EXPERIENCE PARK

The experience park is located at the foot of beautiful mountain Storžič. The design of the experience park stems from ancient cosmic principles - pre-Christian religion gods, the cyclical nature of time and cosmic phenomena. The starting point in the design process was connection with surrounding mountain. This is achieved by the conical shape of the pavilion: The pavilion becomes a hill that merges with its surroundings. The ring-shaped pavilion offers a circular path where the beginning and the end meet and symbolically represents the cyclical nature of life, the processes in nature and the cosmos of the ancient Slavs. The interior space is reminiscent of a cave and serves as the frame for interactive exhibition.

Code name:	<b>Perunis</b>
Program:	Experience park
Type:	Commission
Year:	2021
Client:	Private
Location:	Slovenia
Area:	M
Architects:	Superform; Marjan Pobjljšaj, Anton Žižek, Špela Gliha, Marcel Žnidarič
Renderings:	Maj Meden
